

TO THE MEMORY OF PROFESSOR HUSEYN ORUJOV

Azerbaijani physicist, doctor of physical and mathematical sciences, professor Huseyn Orujov was born in 1948 in Beylagan region, Azerbaijan. The results obtained by our esteemed scientist Huseyn Orujov at the Institute of Physics of the Azerbaijan National Academy of Sciences are published in more than 100 papers. He gave speeches at a number of prestigious international scientific symposiums and conferences.

Along with scientific activity, Huseyn Orujov has a great role in training highly qualified physicists for our country. From 2010 to the end of his life, he headed the Department of Electronics at the Azerbaijan Technical University. The door to his room, both at the Institute of Physics and at the Azerbaijan Technical University, has always been open to everyone, from students to academics. A scientist who does not consider anyone superior to him, always helped those who appealed to him as much as he could. Huseyn Orujov, always treat the team he leads with great care and respect, aroused their interest in scientific research with great pedagogical skills. He taught young students the ability to think independently. Huseyn Orujov, who has always been with young people and supported them, has already published a paper in *Advanced Physical Research*, showing his support in the first issues of the journal.

Huseyn Orujov left his loved ones, physicists and students in 2020. He will always be remembered by his colleagues and students with fond memories.
