CONTENTS

Vol.3, No.3, 2021

F.V. Hajiyeva (pp.115-122)

Structure, electrophysical, thermal and mechanical properties of polymer nanocomposites based on polyvinylidene fluoride (PVDF) and multi-walled carbon nanotubes (MWCNT)

S.A. Hasanova (pp.123-128)

Compared the efficiency of TiO₂ and N-Doped TiO₂ to degrade BTEX

F.V. Hajiyeva, A. Chianese, A.A. Novruzova, M.A. Ramazanov (pp.129-136)

Structure and photoluminescence properties of hybrid nanocomposites on the base of polyvinylidene fluoride (PVDF) and PbS/CdS nanoparticles

A.S. Abiyev (pp.137-141)

Physicochemical processes in aluminum nanoparticles at high temperatures

A.B. Ibrahimli (pp.142-146)

Dynamic viscosity characteristics of liquid metals

Y.I. Aliyev, A.O. Dashdemirov, R.F. Novruzov (pp.147-152)

Structural phase transitions in the compound Ag_{1.55}Cu_{0.45}S at high temperatures
