

J ournal of Modern Technology and Engineering

Volume 8, No.1, 2023

CONTENTS

Vol.8, No.1, 2023

N.H. Ali, S.A. Mohammed, J. Manafian (pp.5-18)

New explicit soliton and other solutions of the van der Waals model through the EShGEEM and the IEEM

F. Nuriyeva, Ş. Polat (pp.19-26)

A new heuristic for solving travelling Salesman problem: adding the furthest vertex to the central triangle

N.N. Hadaya, S.A. Alabady (pp.27-38)

Design a new RPL protocol for the crowded networks

S. Kayahan, K. Günel, U. Nuriyev (pp.39-53)

Multi-labeling strategy based on a heuristic text segmentation for educational content

U. Turapov, F. Nuriyeva (pp.54-62)

The role of artificial intelligence in effective earthquake forecasting

M.J. Ahmad, K. Günel (pp.63-71)

Exploring the accuracy of an optimization-free neural network forecasting model in mathematical epidemiology: a case study in Türkiye
